

Boba is a black bear.
He's very handsome.
He's also my best friend.

But, don't tell the grown-ups.
They don't understand.

LOOK

What are Boba and the boy doing in the four photos?

Taiwan's Leopard Cats

Today, less than five hundred leopard cats remain in Taiwan. This is mainly due to humans, who cause roadkill and damage natural environments.

From head to tail, leopard cats are under a meter long. In Chinese, they are known as “stone tigers.”
